

Benefits of laminated finish

The same finish can be applied to doors, windows and conservatories throughout. Therefore, our laminated finish really will enhance the appearance of your property. There are many more advantages over standard paint finished roller doors.

Colourfast and Harder Wearing

The multi-layer finish absorbs UV radiation by more than 95% ensuring the colours and wood grains are protected from fading and adverse weather effects.

The transparent outer layer protects the colour and is designed to withstand European climate variations giving a long-term stable finish backed by a **TEN YEAR WARRANTY**. Simply put, the visual appearance will be maintained and last longer than inferior paint finished roller doors.

Superior Thermal Insulation

The external foil coating creates a thermal break. Coupled with solar shield technology the profiles are kept much cooler - even with darker colours. Paint finish doors can be problematic when expansion occurs through heat. Our laminated colours greatly reduce such problems.

Anti-Graffiti Finish

With our new optional extra anti-graffiti film, graffiti can be easily removed. Such high performance opens up new opportunities. Naturally, higher UV resistance means the finish is ideal for countries with a hot climate.

Classic Roller Door insulated roller garage doors.

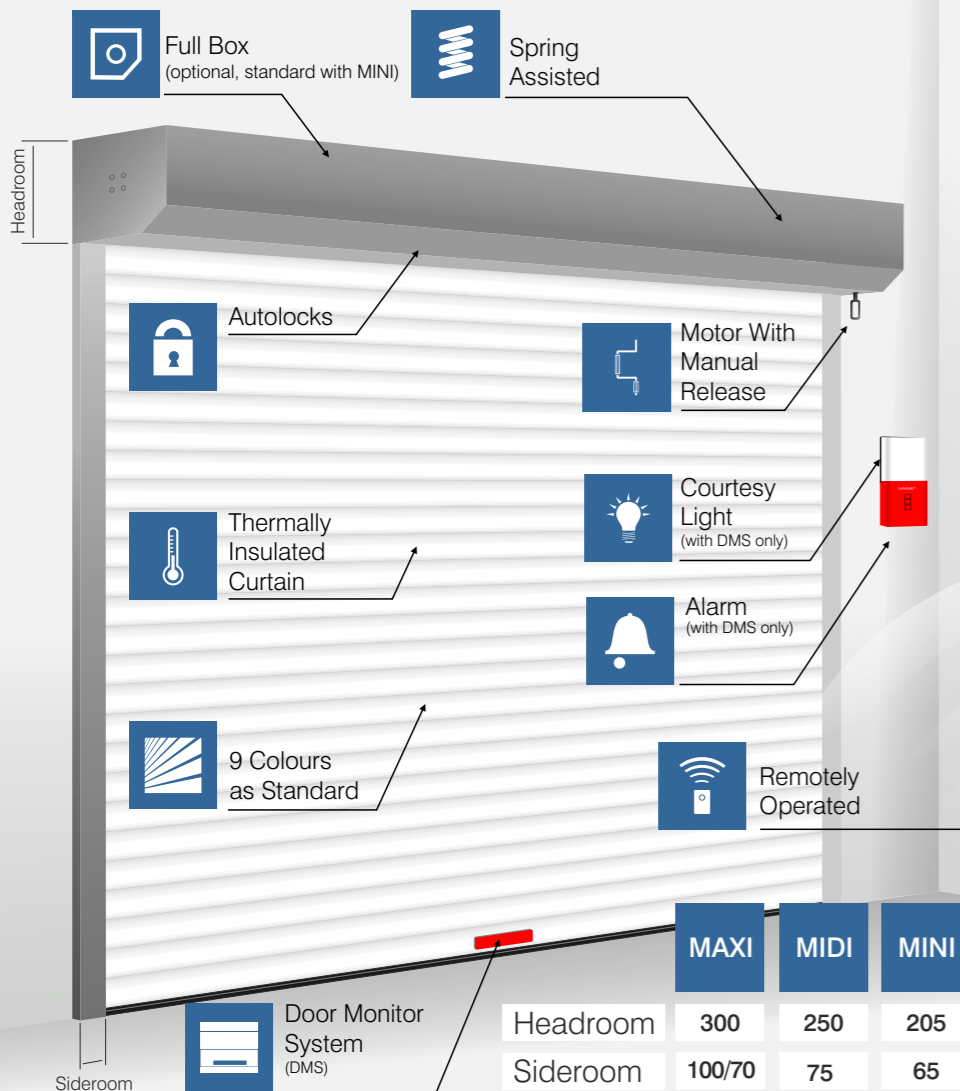

Why a Roller Door - Features & Benefits

With more than 20 years experience, we have made changes and improvements to ensure our products remain at the forefront of our industry, we welcome any potential customer to investigate thoroughly your potential purchase of a roller garage door.

Deciding on our system can save you a lot of space inside your garage. Available in MINI MIDI & MAXI profiles our Classic Roller Doors will match any security and space requirements.

Standard Features

- Remote**
Two "Hold to Run" remotes supplied as standard. For Impulse close a Door Monitor System is required.
- Insulated and Strong**
Profiles have a high density foam filling inside a wall of aluminium creating greater strength and insulation. Ideal for integral garages.
- Made of Aluminium**
Our Classic Roller Doors are made of aluminium. Unlike steel this will not rust and looks much more attractive.
- Space Saving**
Gain extra storage space inside your garage and in many cases extra drive through space.
- Noise Reduction**
The Roller Door MAXI impressive 20mm thick curtain acts as a sound barrier.
- External or Internal Fitting**
Roller Door can be fitted internally or externally face fixed or in between the aperture.
*Full Box required for external fitting.

	MAXI	MIDI	MINI
Headroom	300	250	205
Sideroom	100/70	75	65

3 Function Spring System
This reduces the work load on the motor, gives a smoother door operation, and provides a built in anti drop device.

Nine standard finishes
Our standard paint finishes includes: White, Brown, Jet Black, Steel Blue, Anthracite Grey, Carmine Red, Light Ivory, Fir Green and Golden Oak

Secured with Autolocks
The Classic Roller Door has built in autolocks. When the door is closed a spring clamp device holds the door down tight.

Door Monitor System (optional)
Gives you all round safety. Compare this with a safety edge which protects only the leading edge of the door.

Stylish Remotes
Handsets made of high quality materials. Anti-slip, hardwearing polymer complimented by chrome plated alloy.

Optional Extras

- Full Box** (standard with Mini)
Finishes the roller shutter off nicely. The Full Box is required for external fitting.
- Half Box**
The 90 degree Half Box can create a fascia for garages with limited headroom.
- Hood Lock**
A lockable cover for externally fitted roller doors to secure the manual override.
- Four Channel Handsets**
Two and four channel handsets can be supplied to operate up to four doors using one handset. (2 channel is standard)
- Door Monitor System (DMS)**
Gives you all round safety. Compare this with a 'Safety Edge' which protects only the leading edge of the door.
- Finger Print Scanner**
Open your garage door with a fingerprint scanner. The user always has an unmistakable access authorisation.
- Battery Backup**
Add the Battery Backup and never worry about power failure again. Just carry on using it as normal and wait for power to return.
- Alarm**
In conjunction with the DMS, the alarm will sound when an attempt is made to manually lift the roller door.
- Keypad**
The Keypad is for access without the need to carry hand transmitters.
- Laminate Finish**
Our laminated finish is longer lasting than a powdercoated finish and looks fantastic too.
- Colour Options**
Colour matching laminated guides or powdercoated box covers
- Through Wall Drive**
To be used in the event of power failure a lockable through wall drive, for garages with no other entrance.
